Introduction

The *User Reports Handbook* is a guide for all persons who will be generating and working with the reports and summary information available through this application.

Your site administrator will need to assign specific roles to access this application. You will need to be assigned the full **Accounting** role by your admin user in order to have access to all the reporting functionality discussed in this manual. Please see the *User Administrator Handbook* for instructions on how to assign roles.

There are a number of ways to retrieve batch, deposit, and transaction information with this system. You will be able to generate pre-defined reports and/or create custom reports on a daily, weekly, and monthly basis as well as within specific date ranges. The types of reports available can assist you with the following:

- Balancing batches and deposits
- Creating daily deposit receipts
- Looking at transaction detail information
- Monitoring returned/re-presented collection items
- Reconciling to bank statements
- Determining the status of a batch, deposit, or transaction
- Researching previous batches, deposits, and transactions
- Retrieving images of scanned items
- Generating a list of payments received from your customer

NOTE: Intuit® QuickBooks® users who want to import transaction details into their QuickBooks accounts can also request to have the option available for your site. Send a request to epsfilemaintenance@profitstars.com

System Requirements

In addition to a high-speed Internet connection, the following browsers for Microsoft® Windows® have been approved for use with the application.

For Microsoft® Windows®:

- Windows 7, SP 1: Microsoft Internet Explorer® 11 or Google Chrome™
- Windows 8.1: Microsoft Internet Explorer 11 or Google Chrome
- Windows 10: Microsoft Internet Explorer 11 or Google Chrome
- .NET® Framework 4.6 or higher

Privileges and Roles

The admin user within your organization will need to assign the (full) *Accounting* role under the *Customer Services* privilege for any users within your organization that will be working with the reporting functionality.

Workflow

The following figure demonstrates when a merchant/member within your organization can build reports that reflect transaction information from deposits within the application.

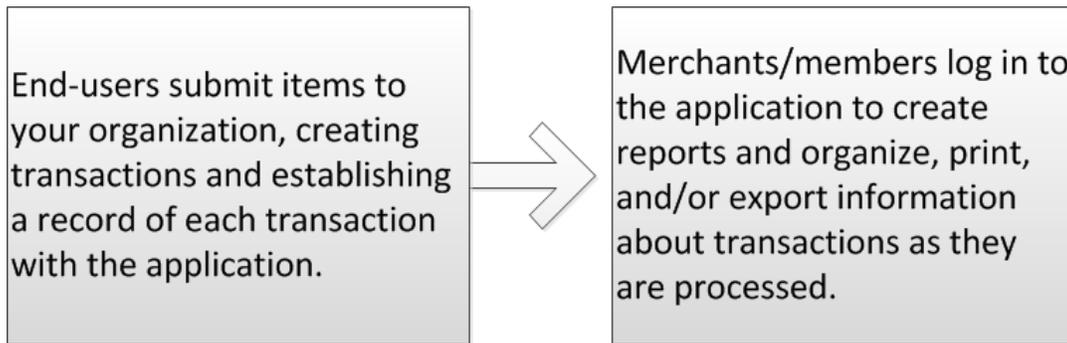

FIGURE 1 - USER REPORTS PROCESS WORKFLOW

Session Timeouts

The system will automatically log off users who have been inactive for 30 minutes. A *Session Timeout Warning* page appears two minutes before a user is logged out and provides an opportunity to remain logged in. Click anywhere in the application to remain logged in.

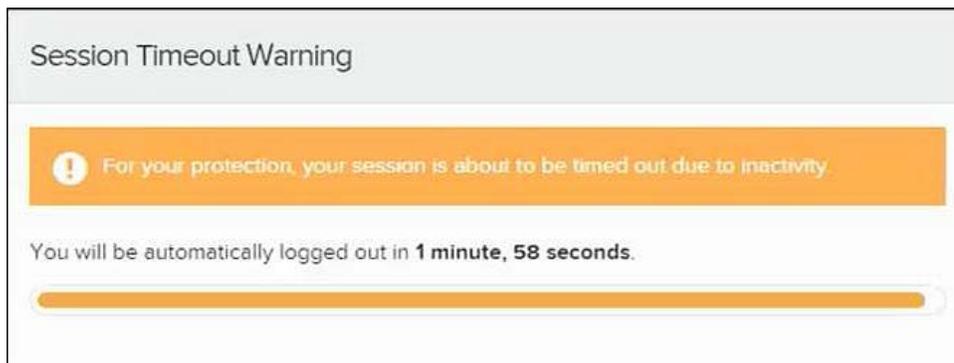

FIGURE 2 - SESSION TIMEOUT WARNING

First Time Logging In

Your admin user will provide you with your site's URL address, your user name, temporary password, and company name that you will need the first time you log in to the system. The **Password** field is the only field that is case-sensitive.

1. Once at the provided URL address, complete the **User Name**, **Password**, and **Company** fields. Select **Login**.
2. The system will prompt you to change your password. Passwords expire every 90 days and are case-sensitive. Use the following guidelines when creating a new password:
 - At least 1 uppercase letter
 - At least 1 lowercase letter
 - At least 1 number
 - 8-15 characters in length
3. Click **Update Password**.

NOTE: Your menu options may differ slightly from those pictured in this document.

Creating a Secret Question

A secret question is a tool used when you forget your password and can have another temporary password generated and sent to an email address. Without an email address in a user's profile, that user will not be able to answer a secret question for a new password for access into the system. The admin will need to manually edit/enter an email address for each merchant user, so that merchant user has the option to request a new password by answering a secret question in the application. Secret questions do not need to be a complete question or contain a question mark. Secret questions and answer are not case-sensitive fields.

Once an admin has entered an email address for the merchant user profile, use the following steps to configure the secret question that will be asked of the user, before a new password can be generated and sent to the applicable email address. If the secret question is answered correctly, you will receive an email with a new temporary password.

NOTE: Single sign-on users do not need to set up a secret question.

1. Log in to the application, and select **User menu | My Settings**.

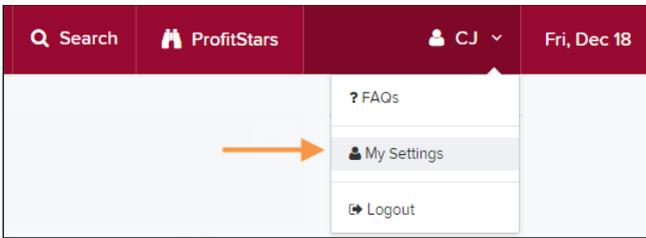

FIGURE 3 - MY SETTINGS OPTION

2. The system will prompt you for your current login password in order to reach the *My Settings* page. Once there, make changes to the **Change Password**, **Secret Question**, and/or **Authorized Caller** sections, as needed. Select **Update** when finished.

FIGURE 4 - MY SETTINGS PAGE

Choosing an Identification Phrase

The Enterprise Payment Solutions (EPS) Support team answers questions about EPS products in the event you need additional help with an application. EPS takes support-related calls from users who have been designated as an authorized caller by the Admin user. If you have been designated as an authorized caller, you will need to set up an identification phrase and answer to verify your status when calling EPS Support for assistance.

Authorized callers: For specific questions about an application, please contact our support team at 877-542-2244 or at epssupport@profitstars.com

NOTE: Non-authorized callers who contact EPS Support will be referred back to their first line of support.

3. Log in to the application, and select **User menu | My Settings**.
4. The system will prompt you for your current login password in order to reach the *My Settings* page. Make changes to the **Identification Phrase** sections, as needed.
5. Type the answer to the question in the **Enter New Identification Response** field, and again in the **Confirm New Identification Response** field. EPS Support will verify this answer when you call. From this page, you can also make changes to your password or secret question and answer if needed. Select **Update** when finished.

Reports

Commonalities Among Reports

- Reports are generated in Central Time (CT).

- Print is an option available for all reports.

- Exporting reports into a Microsoft® Office Excel® spreadsheet, a tab-delimited file (.TSV) or a comma delimited file (.CSV) is available.

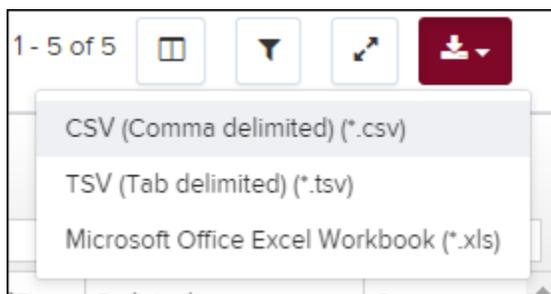

FIGURE 5 - EXPORT MENU OPTIONS

- Select **Full Screen** to view your report across your entire monitor screen.

- Select **Filter** to view filters where you can search the report for alphanumeric entries. Deselecting the filter icon will hide filter fields, and strip the report of your alphanumeric search.

- Select **Filter Columns** to bring a list of all the information columns available in the report. You may configure the list to have certain columns appear in the order you choose, or to hide columns from the report listing.
 - Use the **View** option to determine whether an informational column appears.
 - Use the **Prioritize** tools to change the order of a column in the report.
 - Use the **Freeze** tool to lock a column in place when viewing the report.

FIGURE 6 - WORKING WITH FILTER COLUMNS

NOTE: Report filter settings can be saved into a template for later use. However, it is recommended that you save the reports themselves by exporting them to a file saved on your computer.

Current Transaction Summary & Report

The **Current Transaction Summary** can be found on the *Dashboard* upon logging in. It is a numerical display of the total number of items and dollar amounts of all ACH, Check 21, and credit card debits, credits, refunds, returns, and collection items for all locations being processed by a customer. It covers a rolling 60-day period and is broken down by a transaction's current status within the system.

Although there are many reports you can use to view transactions, the *Current Transaction Summary* allows you to quickly identify any unusual activity regarding your transactions with any of the following status types:

- Declined
- Error
- In Collection

- Voided
- Uncollected NSF
- Suspended (requires financial institution's action to approve or void)
- Disputed
- Invalid/Closed Account

The following table provides a list and definition of all the transaction statuses within the system, for reference.

Status	Definition
Approved	The transaction has been verified and will be processed at the designated cut-off time.
Processed	The transaction has been transmitted to the appropriate network (ACH or Check 21). Changes can no longer be made, and the transaction can no longer be voided.
Collected	<i>(ACH Only)</i> The transaction, originally returned NSF, has been re-presented to the Federal Reserve by ProfitStars, and funds were recovered.
Awaiting Capture	Status for credit card transactions only.
Awaiting Approval	The transaction has been verified, but the amount of the transaction exceeded the Dual Authorization limit of the user who created it. An authorized approver must review and then either approve or void the transaction.
Declined	The transaction has been declined by the EPS system and will not be processed. The transaction exceeded either Dual Authorization limits or Velocity limits.
Voided	The transaction has been voided and will not be processed. A transaction may not be voided once the item is in the Processed status.
Error	An internal error has occurred within the EPS system. Contact your first line of support.
In Collection	<i>(ACH Only)</i> The transaction, returned NSF, is in the process of being re-presented to the Federal Reserve by ProfitStars.
Other ACH Returns	The ACH transaction has been returned by the Federal Reserve. The transaction will be charged back.
Uncollected NSF	<i>(ACH Only)</i> The transaction was returned to ProfitStars NSF by the Federal Reserve, and funds could not be recovered.
Suspended	The transaction has been verified, but it has exceeded Velocity limits.

Status	Definition
Disputed	(ACH Only) The transaction was returned to ProfitStars by the Federal Reserve because the account holder at the receiving financial institution has disputed its validity. The transaction will be charged back (reversed).
Invalid/Closed Account	(ACH Only) The transaction was returned to ProfitStars by the Federal Reserve because the account number at the receiving financial institution was invalid or because the account was closed.
Resolved	The transaction has been moved into a Resolved status by a user to indicate that no further action related to the transaction is required. Transactions can be moved into a Resolved status from a status of Declined, Voided, Invalid/Closed Account, Disputed, Uncollected NSF, Error, or In Research.
Other Check21 Returns	The Check21 transaction has been returned by the Federal Reserve. The transaction will be charged back.

The below figure is an example of the *Current Transaction Summary* on the *Dashboard* upon logging into the system.

Current Transaction Summary 			
This is a summary report of all transactions currently in the system as of 11/14/2015. All times are displayed in Central Time (CT).			
Status	Items	Debits	Credits
Approved	168	\$6,761.79	\$1,386.00
Processed	450	\$11,201.45	\$1,620.00
Collected			
Awaiting Capture			
Awaiting Approval			
Declined	17	\$456,679.19	\$322.50
Voided	41	\$511.20	
Error	34	\$357.10	\$62.00
In Collection			
Other ACH Returns			
Uncollected NSF			
Suspended			
Disputed			
Invalid / Closed Account			
Resolved	95	\$127.00	\$17.00
Other Check21 Returns			

FIGURE 7 - CURRENT TRANSACTION SUMMARY

The *Transaction Status* report is a pre-defined report listing all transactions in a specific status. It is automatically generated when you select a status link from the *Current Transaction Summary*. The list will contain items that have been processed within the last 60 days and give

you access to individual transaction information and images of the scanned items as well. Follow the steps below to generate a *Transaction Status* report.

1. Log in to the application, and select a status that appears as a link and contains values in the *Current Transaction Summary* (for example, **Approved** in the graphic below).

Current Transaction Summary 			
This is a summary report of all transactions currently in the system as of 11/07/2015. All times are displayed in Central Time (CT).			
Status	Items	Debits	Credits
Approved 	18	\$6,177.50	\$73.00
Processed	352	\$20,465.48	\$1,161.00
Collected			
Awaiting Capture			
Awaiting Approval			
Declined	19	\$91,365,770.19	\$322.50
Voided	20	\$274.20	
Error	36	\$469.10	\$62.00
In Collection			
Other ACH Returns			
Uncollected NSF			
Suspended			
Disputed			
Invalid / Closed Account			
Resolved	123	\$155.00	\$17.00
Other Check21 Returns			

FIGURE 8 - CURRENT TRANSACTION SUMMARY WITH APPROVED STATUS INDICATED

2. A list of the first 25 transactions (default value) is displayed. Select a **View** link in the far left column to view details about that transaction.

FIGURE 10 - SHOW EVENTS AND SHOW AUDIT HISTORY OPTIONS

- Show Events:** The automated steps/processes a transaction has gone through. The most recent steps are displayed first and include the date/time the events took place in Central Time.
- Show Audit History:** Manual interaction with the transaction. Details are displayed with the latest steps first and includes the date/time processes took place in Central Time.

NOTE: Additional transaction details may be listed depending on the type of ACH transaction displayed.

Using the Report Builder Utility

The report builder utility can be used to create one-time queries and custom recurring daily, weekly, and monthly reports for bookkeeping, historical research, and problem solving.

There are two options when creating a customized report: **New Report** and **New Shared Report**. While both are customizable, the shared report is available to other users who have access to the system. Other users will be able to pull the shared report and use its settings to generate information. Only the user who created the shared report can delete it.

1. Log in to the application, and select **Reports** from the left main menu.

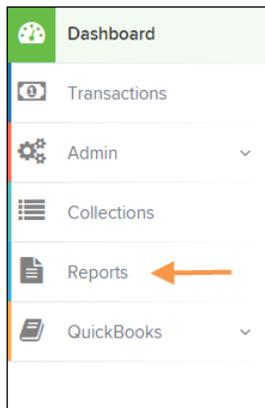

FIGURE 11 - REPORTS TAB

2. Click **New Report** or **New Shared Report**, if it will be available to others.

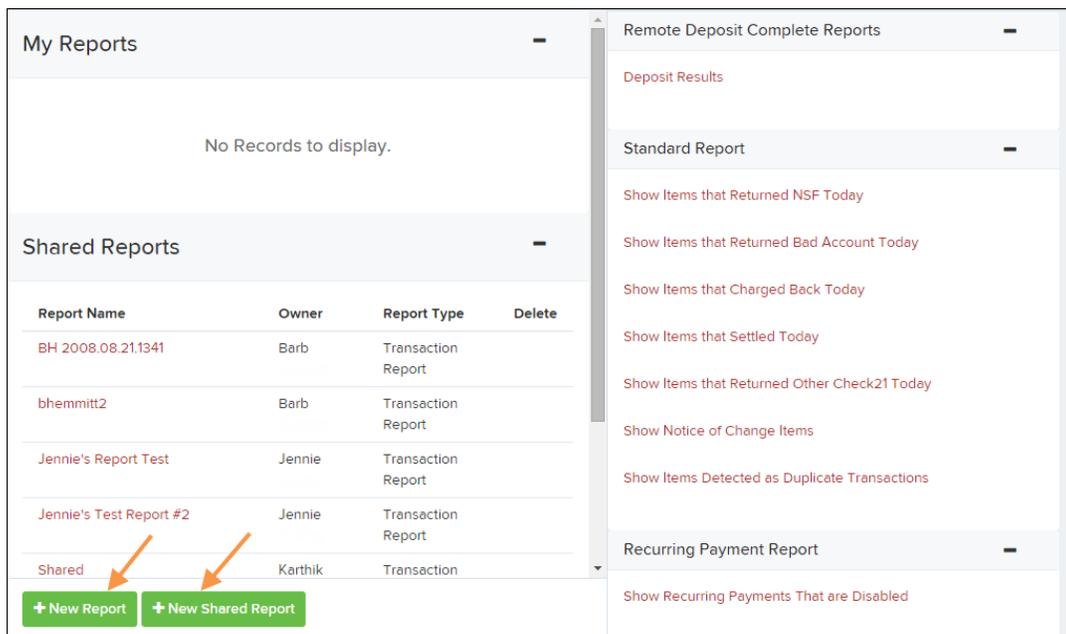

FIGURE 12 - REPORT BUILDER OPTIONS FOR NEW REPORTS

- The *Report* page appears. In the top bar, enter a **Title** for the report. Fill in the report criteria in each of the four sections: **Report Type**, **Date Range**, **Advanced**, and **Report Column** headers.

FIGURE 13 – FOUR SECTIONS IN REPORT BUILDING

- Report Type** - Designate if your report will be a *Transaction Report* based upon the current status of a transaction, or a *Historical Event Report* based upon past events a transaction has been through in the system.
- Date Range** - In the **Date Type** field, select either **Transactions Created** or **Effective Dates** for the report, which will determine if the report displays transactions based upon the date they were created versus the date they took effect.
- Select a pre-specified date range using the **Export Date Range** option (ideal for recurring reports), or specify your own date range with the **Start Date** and **Start Time** and the **End Date** and **End Time** fields.

FIGURE 14 - DATE RANGE SECTION

NOTE: If you are creating a *Historical Event Report*, a custom date range will be unavailable.

- *Advanced Filters* section – Specify the **Location** and **Status** of the transaction you wish to have in your report.
 - **Settlement Status:** Whether a transaction has been deposited. Designate a single status or multiple statuses by selecting the appropriate check box(es).
 - **Origin of Transaction:** Determines how the transaction was received and will be coded. You may designate a single origin for the report or multiple origins by selecting the check box next to each option.
 - **Originated As:** Specifies how the transaction will be processed. You may designate a single type or multiple types.
 - **Account Type:** Determines the type of transaction the report will display. You can select a specific account type or select **ALL**.
 - **Operation:** This option specifies what process a transaction has been through. You may designate one process or select **ALL**.
 - **Authority Response Code:** This option represents the types of return responses that can be received for a transaction. Select a specific response code or select **ALL**.
 - **Amount Range:** The **From** and **To** options allow you to look for transactions with a specific amount or between amount values in decimal format (XX.XX).
- *Report Column Headers* – This section allows you to organize how the report displays.
 - Select the **View** check box next to any fields to have them show on the report.
 - Under **Prioritize**, use the arrows to change the order in which information appears. For example, select the upward arrow to have a field listed before others, or the select the downward arrow to have other fields listed before it.
 - Use **Freeze** to lock fields when viewing a report. This will hold certain fields in view while you explore the rest of the report information.

FIGURE 15 - REPORT COLUMN HEADERS SECTION

- At this time, you may choose to select the **Share to All Users** check box (as shown below) if you want to have this report available for other users to view. If you selected **New Shared Report** previously, this box will already be selected.

Alternatively, you may wish to save the report for your own use at a later time by selecting **Save to My Reports**. This option will both save the report and generate a report to view.

Reports / New Report

Title Share to All Users

FIGURE 16 - SAVE AND RUN REPORT OPTIONS

The report displays results.

- Use the filters to change the report and then select **Run Reports** again, or you can print/export the report, as needed.
- Column headers in the report are selectable by organization. Select a column header to organize the report based on that column's information, in either ascending order (designated by an upward arrow) or descending order (designated by a downward arrow).
- Select **View** to the left of an item to view more details about the transaction.
- To change the report template, adjust the report filters as desired, and then select **Save to My Reports**, which will save the filter options as a template for later use.

NOTE: Be sure to select the **Share to All Users** check box if you wish to save the report for others to use.

Deposit Results Report

The *Deposit Results* report is a date range report used to display a list of batches created. It can be used to monitor the status of current day batches and the items in them, or to look at previous days' batches and items. Batches displayed in the report can represent a single deposit or be a part of a multi-batch deposit.

1. Log in to the application, and select **Reports**.
2. Select **Deposit Results**.

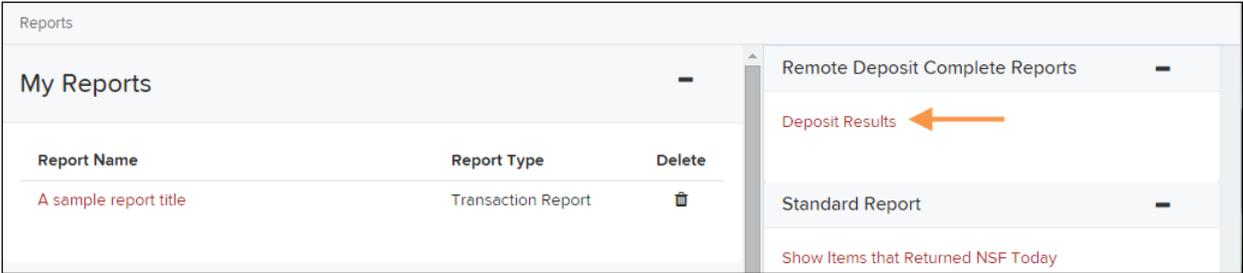

FIGURE 17 - DEPOSIT RESULTS OPTION

3. The *Deposit Results Search* page appears. Select a **Location ID** from where to pull the report information. Select a date range using either the **Quick Pick** option with a list of pre-set date ranges, or the custom option by entering a **Start Date** and **Start Time** options and the **End Date** and **End Time** options.

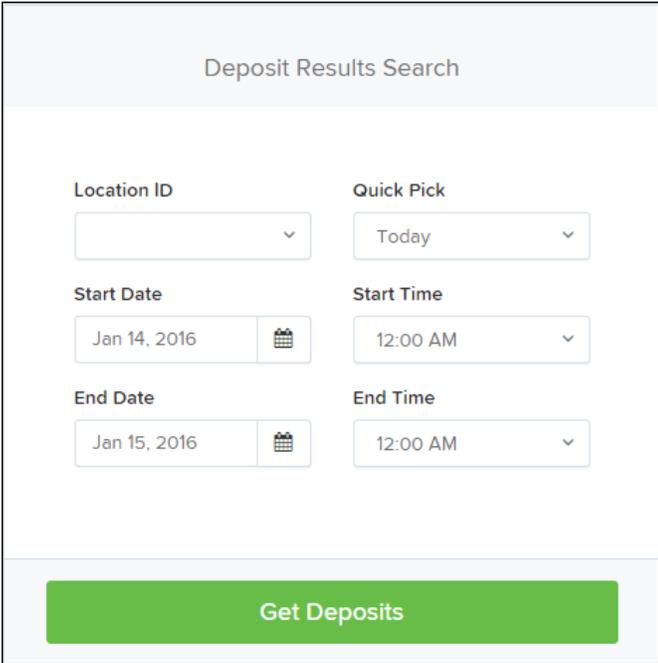

FIGURE 18 - OPTIONS FOR DEPOSIT RESULTS

4. Select **Get Deposits**. A list of the batches matching your criteria appears. You may need to scroll to the right to view all of the information for the report.

Item Details	Deposit Details	Create Date	Location	Custom Batch Id	Batch Type	Description	Deposit Status	Your Count	Your Amount
		12/1/2015	Location 1	uiui	Remote Deposit	New Deposit	Open For Scanning	2	\$100.55
		12/21/2015	Avalon	5646542	Remote Deposit	17:49:04.1335657 12/21/2015 ...	Submitted	2	\$200.00

FIGURE 19 - DEPOSIT RESULTS REPORT

The following table describes all the fields, in alphabetical order, displayed in the *Deposit Results* report and their definitions.

Field	Definition
ACH Deposit Amount	Total amount of the ACH items in the batch/deposit.
ACH Deposit Count	Number of ACH items in the batch/deposit.
ACH Deposit Date	Deposit date of the ACH items within the batch/deposit.
C21 Deposit Amount	Total amount of the Check 21/Image Replacement Document (IRD) items in the batch/deposit.
C21 Deposit Count	Number of Check 21/Image Replacement Document (IRD) items in the batch/deposit.
C21 Deposit Date	Deposit date of the Check 21/Image Replacement Document (IRD) items within the batch/deposit.
Create Date	Date the batch/deposit was created.
Custom Batch ID	Information that, with the feature enabled, will display a required field when creating a new deposit. This field will be a unique label for a batch/deposit and reflects on the <i>Deposit Results</i> report.
Deposit Details	Link to the list of steps the batch/deposit has taken and the user(s) who processed it.
Deposit Slip ID#	An option that, if enabled, will display a field on the <i>New Deposit</i> page with a value applied to the virtual deposit slip. This value is either predefined or optional and reflects on the <i>Deposit Results</i> report.
Deposit Status	Status of the entire batch/deposit at the time the report is generated.
Description	Deposit name which is made up of the date/time the batch was created along with a system-assigned batch ID.

Field	Definition
Item Details	Link to a list of the individual checks that make up the batch/deposit and their respective statuses.
Location	Account (location) to be credited with the payment. This field appears on the <i>New Deposit</i> page and the <i>Deposit Results</i> report.
Received Amount	Amount of the deposit, after review.
Received Count	Number of items identified in the deposit, after review.
Total Deposit Amount	Total amount of the deposit.
Total Deposit Count	Total number of items in the deposits.
Your Amount	Amount of the deposit entered when creating the batch/deposit.
Your Count	Number of items you entered when creating the batch/deposit.

Notice that the report also displays the status of each transaction under the column **Deposit Status**. The following table describes all the statuses that a transaction can display.

Status	Definition
Deleted	This status indicates that the entire deposit has been deleted by someone in your organization prior to closing it, since a deposit may not be deleted once it has been closed. None of the items in the deposit will be sent to transaction processing.
Deposited	All items have been processed successfully, and the deposit is in balance with no discrepancies or errors. These items are now in the approved status, and an email notification has been sent to a designated user.
Deposited with Adjustment	One or more of the items within the deposit caused an adjustment to the total deposit amount. The transactions have been sent to processing with the adjusted amount, and an email notification has been sent to a designated user.
Open for Scanning	A deposit has been created, and items can be scanned into this deposit until it is closed by a user.
Partial Deposit	One or more of the items was removed from the deposit due to a duplicate or rejected item. The deposit has been sent to transaction processing with the deposit total minus the items that will not be processed. An email notification has been sent to a designated user.

Status	Definition
Rejected	The entire deposit has been rejected. A deposit is rejected when the adjustment amount exceeds the limit assigned by the financial institution or when all items within the deposit are rejected because they are duplicates.
Submitted	The deposit has been closed, and the items are being reviewed for accuracy and errors. Once finished, the status of the items will change to one of the statuses defined previously.

5. Select the **Deposit Details** icon to view the events the batch has been through. The details will display on the *Deposit Details* page. Navigate back to return to the report results.

Item Details	Deposit Details	Create Date	Location
		12/1/2015	AA CPP Location 1
		12/21/2015	Avalon Campbell

FIGURE 23 - ITEM DETAILS PAGE

A transaction's **Status** indicates where the transaction is in the deposit process. The following table describes all the potential statuses that an item can be in.

Status	Definition
Deposited	The item has been sent to transaction processing and will be processed with the batch/deposit at the designated cutoff time.
Duplicate	The item has been identified as a duplicate of an item that has already been processed within the last 75 days and, therefore, will be rejected from the batch/deposit.
Error	An internal error has occurred within the system. Contact your first line of support.
In Review	The item is waiting for MICR repair or amount key entry. Once those steps have been completed, the status will then change accordingly.
Needs Rescan	The image quality of the check is poor or is a partial image and will need to be rescanned.
Open	The item has been scanned with no problems in an open batch/deposit.

Status	Definition
Rejected	<p>The item has been rejected and will not be processed. An item can be rejected for the following reasons:</p> <ul style="list-style-type: none"> • Invalid MICR • Invalid document • Invalid payment origin • Duplicate item • Batch/Deposit out of adjustment range • Item is above a user's Dual Authorization limit • Item is above a merchant's Velocity limit

7. Select the icon under **Item Details** to view the *Batch Item Details* page, which has information about the item in relation to the batch.

Credits and Debits to Your Merchant Settlement Account

The *Credits and Debits to Your Merchant Settlement Account* report is a date range report that identifies the deposits made on the indicated date(s). The report will also display the individual transaction amounts that make up a deposit and specific details of a transaction.

1. Log in and select **Reports** from the top of the page.
2. Under **Merchant Settlement Accounts Reports**, select **Credits and Debits to Your Merchant Settlement Account** (as shown below).

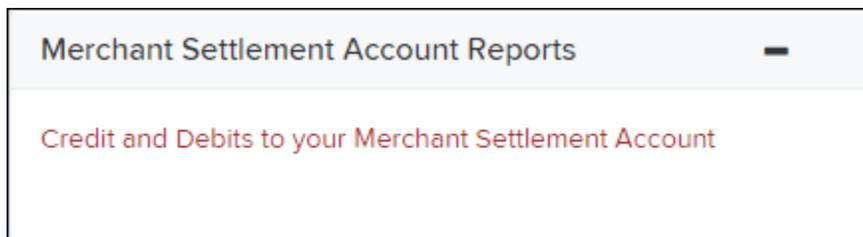

FIGURE 27 - CREDIT AND DEBITS TO YOUR MERCHANT SETTLEMENT ACCOUNT

3. The *Merchant Settlement Account Reports* search criteria appears. Select a **Location ID** to pull report information from. Select a date range using either the **Quick Pick** option with a list of pre-set date ranges, or the custom option by entering a **Start Date** and **Start Time** and the **End Date** and **End Time**.

Standard Reports

Standard reports are pre-defined daily reports. They can provide you with information about notices of changes received, your daily ACH return items and charge backs, as well as items settled that day. To generate these reports, follow the steps below.

1. Log in and select the **Reports** tab from the left main menu.
2. Under the section *Standard Reports*, select the report you wish to run from the list displayed.

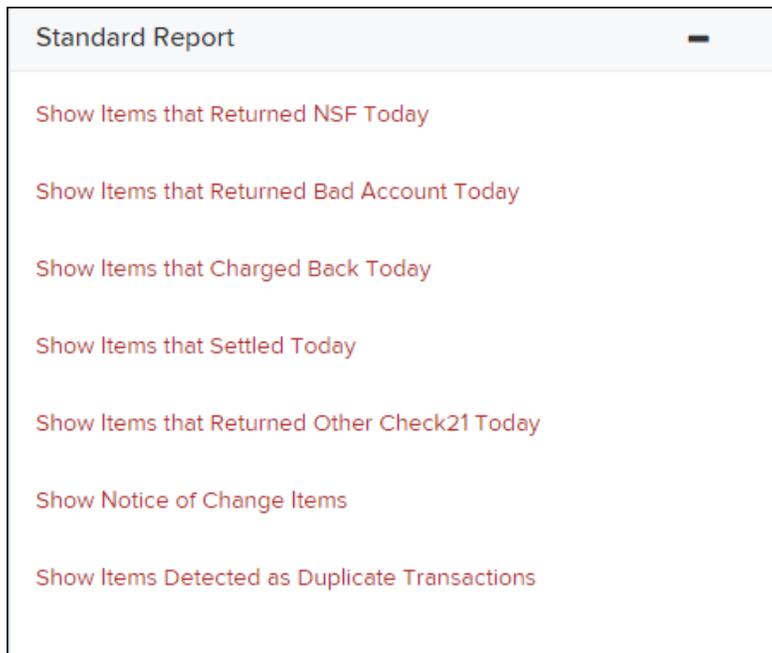

FIGURE 31 - STANDARD REPORTS LIST

3. Once you select a report, it will run automatically with preset criteria in the report filters.
 - a. To make a temporary change to the report criteria:
 - i. Adjust any filters, as needed.
 - ii. Select **Run Report**.
 - b. To make a permanent change (saving the report template):
 - i. Adjust any filters, as needed.
 - ii. Adjust the name of the report and select **Save to My Reports**.

Recurring Payment Reports

There are two recurring payment reports available: *Show Recurring Payments That Are Disabled* and *Recurring Payment Due*. Each report lists previous and/or current accounts set up on a recurring payment or credit plan.

FIGURE 32 - RECURRING PAYMENT REPORTS

Recurring Payments That Are Disabled

The *Recurring Payments That Are Disabled* report lists those accounts that no longer have funds being debited from or credited to their accounts.

1. Log in and select **Reports**.
2. Under the heading *Recurring Payment Reports*, select **Show Recurring Payments That Are Disabled**.
3. The *Recurring Payment Reports* page appears. Select a **Location** from where to pull information for the report.

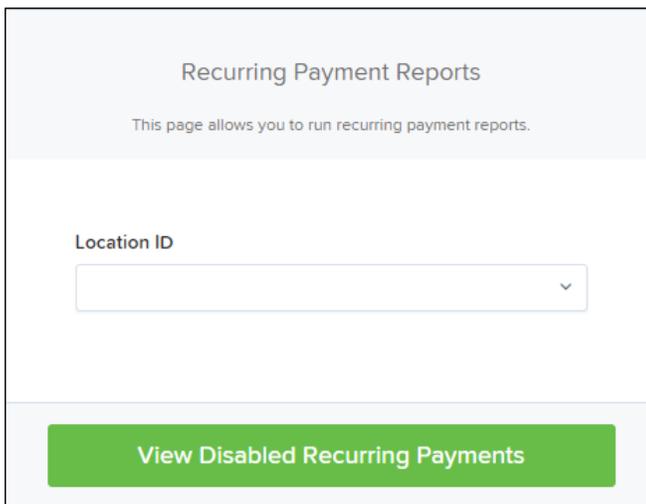

FIGURE 33 - SELECTING A LOCATION FOR A RECURRING PAYMENT THAT IS DISABLED REPORT

4. Select **View Disabled Recurring Payments**. The recurring payments that are disabled appear. Select the icon under the *View* column to see the recurring payment details.
