INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and Stockholders
Midwest BankCentre, Inc. and Subsidiaries

Opinion

We have audited the accompanying consolidated financial statements of Midwest Bank Centre, Inc. and Subsidiaries, which comprise the consolidated balance sheets as of December 31, 2025 and 2024, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Midwest BankCentre, Inc. and Subsidiaries as of December 31, 2025 and 2024, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Internal Control Over Financial Reporting

We also have audited in accordance with auditing standards generally accepted in the United States of America, Midwest BankCentre, Inc.'s internal control over financial reporting as of December 31, 2025, based on the criteria established in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and our report dated February 23, 2026 expressed an unmodified opinion.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of Midwest BankCentre, Inc. and Subsidiaries and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Responsibilities of Management for the Consolidated Financial Statements (Continued)

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Midwest BankCentre, Inc. and Subsidiaries' ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Midwest BankCentre, Inc. and Subsidiaries' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

UHY LLP

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

NOTE 1 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Midwest BankCentre, Inc. (the “Company,” “we,” “our,” or “us”) is a bank holding company headquartered in St. Louis, Missouri whose principal activity is the ownership and management of its wholly owned subsidiaries, Midwest BankCentre (the “Bank”), Midwest BankCentre Insurance Agency, LLC (“MBCIA”) and its newly formed subsidiary in October 2024, Rising Together CDE, LLC, a qualified community development entity formed as part of the federal new market tax credit program. Rising Analytics, LLC, a former wholly owned subsidiary of the Company, was dissolved in November 2024.

The Bank has branches located primarily in the St. Louis metropolitan area, and provides a full range of commercial, mortgage and consumer banking products and services. The Bank operates under a State Chartered Depository Trust Company and is a member of the Federal Reserve Bank. As a state bank member of the Federal Reserve, the Bank is subject to regulation by the State of Missouri Division of Finance, the Federal Reserve, and the Federal Deposit Insurance Corporation (“FDIC”).

Our principal business activity has been lending to and accepting deposits from individuals, businesses, municipalities, and other entities. We have derived income principally from interest charged on loans and, to a lesser extent, from interest and dividends earned on investment securities. We have also derived income from noninterest sources, such as: fees received in connection with various lending and deposit services; residential mortgage loan originations, sales and servicing; and, from time to time, gains on sales of assets. Our principal expenses include interest expense on deposits and borrowings, operating expenses, such as salaries and employee benefits, occupancy and equipment, data processing costs, professional fees and other noninterest expenses, provision for credit losses and income tax expense.

Basis of Presentation

The accompanying consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and conform to reporting practices within the banking industry. Management of the Company has made a number of estimates and assumptions related to the reporting of assets and liabilities to prepare the consolidated financial statements in conformity with GAAP. Actual results may differ from those estimates. In the opinion of management, all adjustments, consisting of normal recurring accruals considered necessary for a fair presentation of the results of operations for annual periods presented herein, have been included.

Certain reclassifications of 2024 amounts have been made to conform to the 2025 presentation but do not have an effect on net income or shareholders’ equity.

Principles of Consolidation

The consolidated financial statements include the accounts of Midwest BankCentre, Inc. and its wholly owned subsidiaries, Midwest BankCentre, Midwest BankCentre Insurance Agency, LLC, and Rising Together CDE, LLC, as well as Rising Analytics, LLC, a former wholly owned subsidiary of the Company that was dissolved in November 2024. All significant intercompany accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

Cash and cash equivalents are defined as cash on hand, amounts due from banks, which includes amounts on deposit with the Federal Reserve, interest-bearing deposits with banks or other financial institutions and federal funds sold. The Bank considers all short-term investments with an original maturity of three months or less to be cash equivalents. The Bank’s cash deposits in financial institutions are insured by FDIC insurance, which is subject to certain limitations and conditions.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Investment Securities

The Bank classifies its debt investment securities as available for sale or held to maturity at the time of purchase. Securities held to maturity are those debt instruments which the Bank has the positive intent and ability to hold until maturity. Securities held to maturity are recorded at costs, adjusted for the amortization of premiums or accretion of discounts. All other debt securities are classified as available for sale. As of December 31, 2025 and 2024, all investment securities were classified as available for sale. Securities available for sale are recorded at fair value with unrealized gains and losses, net of related tax effect, included in other comprehensive income. The related accumulated unrealized holding gains and losses are reported as a separate component of stockholders' equity until realized.

Available-for-sale debt securities in an unrealized loss position are evaluated, at least quarterly, for impairment related to credit losses. This determination requires significant judgment. The Bank first assesses whether it intends to sell, or it is more likely than not that it will be required to sell, the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is written down to fair value through income. For debt securities available that do not meet the above-mentioned criteria, the Bank evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, management considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency, and adverse conditions specifically related to the security, among other factors. If this assessment indicates that a credit loss exists, and the present value of cash flows expected to be collected from the security is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost basis. Any impairment that has not been recorded through an allowance for credit losses is recorded in other comprehensive income.

Changes in the allowance for credit losses are recorded as provision for, or reversal or, credit loss expense. Losses are charged against the allowance when management believes an available-for-sale security is uncollectible or when either of the criteria regarding intent or requirement to sell is met.

Purchase premiums are amortized over the estimated life or to the earliest call date and purchase discounts are accreted over the estimated life or to the earliest call date of the related investment security as an adjustment to yield using the effective interest method. Unamortized premiums, unaccreted discounts, and early payment premiums are recognized in interest income upon disposition of the related security. Interest and dividend income are recognized when earned. Realized gains and losses from the sale of available-for-sale securities are determined using the specific identification method and are included in noninterest income. Also, when applicable, realized gains and losses are reported as a reclassification adjustment, net of tax, in other comprehensive income.

Nonmarketable Equity Securities

Nonmarketable equity securities include the Bank's required investments in the stock of the Federal Home Loan Bank of Des Moines ("FHLB") and the Federal Reserve Bank ("FRB"). The Bank is a member of the FHLB system as well as its regional FRB. Members of the FHLB are required to own a certain amount of stock based on the level of borrowings and other factors and may invest in additional amounts. FHLB stock and FRB stock are both carried at cost, classified as a restricted security, and periodically evaluated for impairment based on ultimate recovery of par value. Both cash dividends and stock dividends are reported as income. These stocks are included in other assets on the consolidated balance sheets.

Loans

The Bank originates commercial and industrial, secured by real estate, and consumer loans to customers. A substantial portion of the loan portfolio is represented by commercial loans made throughout the greater St. Louis metropolitan area and Kansas City market. The ability of the Bank's debtors to honor their contracts is dependent upon the real estate economic sector and other current economic conditions.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Loans that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are classified as portfolio loans. Portfolio loans are carried at the principal balance outstanding, net of purchase premiums and discounts and deferred loan fees and costs. Interest income is accrued on the unpaid principal balance. Accrued interest receivable on loans totaled \$9.2 million and \$8.6 million at December 31, 2025 and 2024, respectively, and are included in other assets on the consolidated balance sheets.

Purchase premium and discounts on installment loans are recognized as income over the term of the loans using a method that approximates the interest method. Loan and commitment fees on commercial and consumer loans, net of costs, are deferred and recognized in income over the term of the loan or commitment as an adjustment of yield.

Classifications of Loan Portfolio

Commercial and Industrial

Commercial and industrial loans include loans for commercial, industrial, and professional purposes including:

- Mining, oil– and gas–producing, and quarrying companies.
- Manufacturing companies, including those which process agricultural commodities.
- Construction companies.
- Transportation and communications companies and public utilities.
- Wholesale and retail trade enterprises and other dealers in commodities.
- Cooperative associations including farmers' cooperatives.
- Service enterprises such as hotels, motels, laundries, automotive service stations, and nursing homes and hospitals operated for profit.
- Insurance agents.
- Practitioners of law, medicine, and public accounting.
- Loans for the purpose of financing capital expenditures and current operations.
- Loans to business enterprises guaranteed by the Small Business Administration (“SBA”).
- Loans made to finance construction that do not meet the definition of a “loan secured by real estate.”
- Dealer flooring or floorplan loans.
- Overnight lending for commercial and industrial purposes.

Credits are typically collateralized by business equipment, inventory, accounts receivable and other business assets. Loan to value ratios are ordinarily between 60% – 80% at origination depending on collateral securing the debt.

Secured by Real Estate

Commercial real estate loans are loans secured by real estate as evidenced by mortgages or other liens on nonfarm nonresidential properties, excluding owner–occupied real estate loans. Included in this category are:

- Nonfarm properties with five or more dwelling units in structures (including apartment buildings and apartment hotels) used primarily to accommodate households on a more or less permanent basis.
- 5 or more-unit housekeeping dwellings with commercial units combined where use is primarily residential.
- Cooperative–type apartment buildings containing 5 or more dwelling units.

Loan to value ratios are generally within regulatory guidelines.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Owner-occupied real estate loans are loans secured by owner-occupied nonfarm nonresidential properties. Loans in this category are those nonfarm nonresidential property loans for which the primary source of repayment is the cash flow from the ongoing operations and activities conducted by the party, or an affiliate of the party, who owns the property. For loans secured by owner-occupied nonfarm nonresidential properties, the primary source of repayment is not derived from third party, nonaffiliated, rental income associated with the property (i.e., any such rental income is less than 50 percent of the source of repayment) or the proceeds of the sale, refinancing, or permanent financing of the property. Loans included in this category include credits secured by hospitals, golf courses, recreational facilities, and car washes unless the property is owned by an investor who leases the property to the operator who, in turn, is not related to or affiliated with the investor. Also included are loans secured by churches unless the property is owned by an investor who leases the property to the congregation. Loan to value ratios are generally within regulatory guidelines.

Real estate construction loans are loans made to finance (a) land development (i.e., the process of improving land – laying sewers, water pipes, etc.) preparatory to erecting new structures or (b) the on-site construction of industrial, commercial, residential, or farm buildings. For purposes of this item, "construction" includes not only construction of new structures, but also additions or alterations to existing structures and the demolition of existing structures to make way for new structures. Also included in this category are the following:

- Loans secured by vacant land, except land known to be used or usable for agricultural purposes, such as crop and livestock production.
- Loans secured by real estate with the proceeds being used to acquire and improve developed and undeveloped property.
- Loans made under Title I or Title X of the National Housing Act that conform to the definition of construction stated above and that are secured by real estate.

Loan to value ratios are generally within regulatory guidelines.

Consumer

Individual consumer loans are credits extended to individuals for household, family, and other personal expenditures that do not meet the definition of a "loan secured by real estate" and include both secured and unsecured loans to individuals. Collateral would normally be marketable securities, bank deposits or other personal vehicles or assets. When collateralized, loan to value ratios are generally within industry norms.

Mortgage one to four family loans are open-end and closed-end loans secured by real estate as evidenced by mortgages or other liens on:

- Nonfarm property containing 1–4 dwelling units (including vacation homes) or more than four dwelling units if each is separated from other units by dividing walls that extend from ground to roof (e.g., row houses, townhouses, or the like).
- Mobile homes where (a) state laws define the purchase or holding of a mobile home as the purchase or holding of real property and where (b) the loan to purchase the mobile home is secured by that mobile home as evidenced by a mortgage or other instrument on real property.
- Individual condominium dwelling units and loans secured by an interest in individual cooperative housing units, even if in a building with five or more dwelling units.
- Housekeeping dwellings with commercial units combined where use is primarily residential and where only 1–4 family dwelling units are involved.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Home equity loans consist of revolving, open-end loans secured by 1–4 family residential properties and extended under lines of credit. These lines of credit, commonly known as home equity lines, are typically secured by a junior lien and are usually accessible by check or credit card. In addition, loans secured by junior liens are included in this category. These credits are closed-end loans secured by junior (i.e., other than first) liens on 1–4 family residential properties.

Loans Held for Sale

Loans held for sale include fixed rate residential mortgage loans. These loans are typically classified as held for sale upon origination based upon management's intent to sell the production of these loans. They are carried at the lower of aggregate cost or fair value. Fair value is determined based on prevailing market prices for loans with similar characteristics or on sale contract prices, which represent the estimated exit price. Declines in fair value below cost are recognized as a reduction to mortgage banking revenue. Deferred fees and costs related to these loans are not amortized but are recognized as part of the cost basis of the loan at the time it is sold. Gains or losses on sales are recognized upon sale.

Nonaccrual Loans

The accrual of interest on impaired loans is discontinued (i.e., nonaccrual status) when, in the opinion of management, the collection of interest on a loan is unlikely or when either principal or interest is past due over 90 days, unless certain conditions exist. When interest accrual is discontinued, all unpaid interest accrued during the current year is reversed against current period earnings and interest accrued relating to the prior year(s) is charged against the valuation reserve. Interest is included in income only after all previous loan charge-offs have been recovered and is recorded only as received. Generally, loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Impaired Loans

A loan is considered impaired when, based on current information and events, it is probable that the Bank will be unable to collect the scheduled payments of principal or interest when due pursuant to the contractual terms of the loan agreement. Included in impaired loans are all nonaccrual loans, as well as loans whose terms have been modified in a loan restructuring. Factors considered by management in determining impairment include payment status, collateral value, and the probability of collecting the scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. Impairment is measured on a loan-by-loan basis for commercial and industrial, secured by real estate loans and consumer loans, by, among other factors, the fair value of the collateral if the loan is collateral dependent.

Allowance for Credit Losses ("ACL") on Loans

The ACL on loans is a valuation account that is deducted from the loans' amortized cost basis to present the net amount expected to be collected on the loans. The amount of the ACL represents management's best estimate of current expected credit losses on loans considering available information, from internal and external sources, relevant to assessing collectability over the loans' contractual terms, adjusted for expected prepayments when appropriate. The contractual term excludes expected extensions, renewals, and modifications unless either of the following applies: management has a reasonable expectation at the reporting date that a modification will be executed with an individual borrower or the extension or renewal options are included in the original or modified contract at the reporting date and are not unconditionally cancellable by the Company.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Management estimates the allowance balance using relevant information, from internal and external sources, relating to historical credit loss experience, current conditions, and reasonable and supportable forecasts. While historical credit loss experience provides the basis for the estimation of expected credit losses, adjustments to historical loss information may be made for differences in current loan-specific risk characteristics, environmental conditions, or other relevant factors. ACL on loans is measured on a collective basis and reflects impairment in groups of loans aggregated on the basis of similar risk characteristics. Loans that do not share risk characteristics are evaluated for expected credit losses on an individual basis and excluded from the collective evaluation. Expected credit losses for collateral dependent loans, including loans where the borrower is experiencing financial difficulty, but foreclosure is not probable, are based on the fair value of the collateral at the reporting date, adjusted for selling costs as appropriate.

Provision for credit loss expense related to loans reflects the totality of actions taken on all loans for a particular period including any necessary increases or decreases in the allowance related to changes in credit loss expectations associated with specific loans or pools of loans. Portions of the allowance may be allocated for specific credits; however, the entire allowance is available for any credit that, in management's judgment, should be charged-off. While management utilizes its best judgment and information available, the ultimate appropriateness of the allowance is dependent upon a variety of factors beyond our control, including the performance of our loan portfolio, the economy, changes in interest rates and the view of the regulatory authorities toward loan classifications.

In calculating the ACL, most loans are segmented into pools based upon similar characteristics and risk profiles. Common characteristics and risk profiles may include internal credit ratings, risk ratings or classification, financial asset type, collateral type, size, industry of the borrower, historical or expected credit loss patterns, and reasonable and supportable forecast periods. For modeling purposes, our loan pools include (i) commercial and industrial, (ii) secured by real estate, and (iii) consumer. We periodically reassess each pool to ensure the loans within the pool continue to share similar characteristics and risk profiles and to determine whether further segmentation is necessary.

The table below identifies the Company's loan portfolio segments and classes.

Segment	Class
Commercial and Industrial	Commercial and Industrial
Secured by Real Estate	Owner-Occupied Real Estate Commercial Real Estate Construction Real Estate
Consumer	Mortgage 1-4 Family Home Equity Individual

For each loan pool, expected credit losses are measured over the life of each loan utilizing a combination of models which measure (i) discounted cash flow, historical loss rates using regression analysis of a correlated economic factor (unemployment, gross domestic product or home price index) to determine the loss rate for the loan pool, including usage of prepayment speed, recovery rate and curtailment rates in the cash flow stream of each loan over the life of the loan, (ii) probability of default ("PD"), which is the likelihood that loan will stop performing or default, (iii) loss given default ("LGD"), which is the expected loss rate for loans in default, (iv) exposure at default ("EAD"), which is the estimated outstanding principal balance of the loans upon default, including the expected funding of unfunded commitments outstanding as of the measure date, and (v) the weighted average remaining life method for the individual loan class, which calculates the remaining life of the loan pool and Bank loss data.

This methodology builds on default probabilities already incorporated into the risk grading process by utilizing pool-specific historical loss rates to calculate expected credit losses. These pool-specific historical loss rates may be adjusted for current macroeconomic assumptions, as further discussed below, and other

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

factors such as differences in underwriting standards, portfolio mix, or when historical asset terms do not reflect the contractual terms of the financial assets being evaluated as of the measurement date. Each time expected credit losses is measured, the relevancy of historical loss information is assessed and any necessary adjustments are considered to address any differences in asset-specific characteristics.

The measurement of expected credit losses is impacted by loan and borrower attributes and certain macroeconomic variables. Significant loan and borrower attributes utilized in the modeling processes include, among other things, (i) origination date, (ii) maturity date, (iii) payment type, (iv) collateral type and amount, (v) current risk grade, (vi) current unpaid balance and commitment utilization rate, (vii) payment status and delinquency history and (viii) expected recoveries of previously charged-off amounts. Significant macroeconomic variables utilized in our modeling processes include, among other things, (i) Gross Domestic Product, (ii) forecasted unemployment rates, and (iii) Case Shiller U.S. National Home Price Index.

Management qualitatively adjusts model results for risk factors that are not considered within the modeling processes but are nonetheless relevant in assessing the expected credit losses within our loan pools. These qualitative factor (“Q-Factor”) adjustments may increase or decrease management's estimate of expected credit losses by a calculated percentage or amount based upon the estimated level of risk. The various risks that may be considered in making Q-Factor adjustments include, among other things, the impact of (i) changes in lending policies and procedures, including changes in underwriting standards and collection, charge-off, and recovery practices, (ii) actual and expected changes in economic and business conditions and developments that affect the collectability of the loan pools, including the condition of various market segments, (iii) changes in the nature and volume of the loan pools and in the terms of the underlying loans, (iv) changes in the experience, ability, and depth of our lending management and other relevant staff, (v) changes in volume and severity of past due loans, the volume of non-accrual loans, and the volume and severity of adversely classified or graded loans, (vi) changes in the quality of our loan review system, (vii) changes in the value of the underlying collateral for loans for collateral-dependent loans, (viii) the existence and effect of any concentrations of credit, and changes in the level of such occurrences and (ix) other external factors such as competition and legal and regulatory environments on the level of estimated credit losses in the institution's existing portfolio; and events such as natural disasters or health pandemics.

In some cases, management may determine that an individual loan exhibits unique risk characteristics which differentiate the loan from other loans within our loan pools. In such cases, the loans are evaluated for expected credit losses on an individual basis and excluded from the collective evaluation. Specific allocations of the ACL are determined by analyzing the borrower's ability to repay amounts owed, collateral deficiencies, the relative risk grade of the loan and economic conditions affecting the borrower's industry, among other things. A loan is considered collateral dependent when, based upon management's assessment, the borrower is experiencing financial difficulty and repayment is expected to be provided substantially through the operation or sale of the collateral. In such cases, expected credit losses are based on the fair value of the collateral at the measurement date, adjusted for estimated selling costs if satisfaction of the loan depends on the sale of the collateral.

Specific reserves reflect expected credit losses on loans identified for evaluation or individually considered nonperforming. These loans no longer have similar risk characteristics to collectively evaluated loans due to changes in credit risk, borrower circumstances, recognition of write-offs, or cash collections that have been fully applied to principal on the basis of nonaccrual policies. At a minimum, the population of loans subject to individual evaluation include individual loans where it is probable we will be unable to collect all amounts due, according to the original contractual terms. These include, watchlist loans with a balance greater than \$1.0 million for loans secured by real estate and greater than \$500,000 for commercial and industrial loans, accruing loans 90 days past due or greater, specialty lending relationships and other loans as determined by management. ACL for consumer loans are, primarily, determined by meaningful pools of similar loans and are evaluated on a quarterly basis.

The provision for credit losses on loans individually evaluated is recognized on the basis of the present value of expected future cash flows discounted at the effective interest rate, the fair value of collateral

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

adjusted for estimated costs to sell, or the observable market price as of the relevant date. ACL on loans adjustments for estimated costs to sell are not appropriate when the repayment of the collateral-dependent loan is expected from the operation of the collateral.

Premises and Equipment

Premises, furniture, and equipment are stated at cost less accumulated depreciation. Depreciation expense is computed principally on an accelerated or straight-line method and are based on estimated useful lives of the assets. Estimated useful lives of premises and equipment range from 15 to 39 years and 3 to 15 years, respectively. Maintenance and repairs are charged to operating expenses as incurred, while improvements and major renewals that extend the useful life of assets are capitalized and depreciated over the estimated remaining useful life. Land is carried at cost.

Operating Lease Right-of-Use Assets and Liabilities

The Company determines if a lease is present at the inception of an agreement. Operating leases are capitalized at commencement and are discounted using the U.S. Treasury risk-free rate unless the lease defines an implicit rate within the contract.

The operating lease right-of-use assets represent the Company's right to use an underlying asset for the lease term, and the operating lease liabilities represent the obligation to make lease payments arising from the lease. Operating lease right of use assets and operating lease liabilities are recognized on the lease commencement date based on the present value of lease payments over the lease term. No significant judgments or assumptions were involved in developing the estimated operating lease liabilities as the Company's operating lease liabilities largely represent future rental expenses associated with operating leases and the U.S. Treasury risk-free rate.

Goodwill and Intangible Assets

Goodwill resulting from a business combination is generally determined as excess of the fair value of consideration transferred, plus the fair value of any noncontrolling interests in the acquiree, over the fair value of the net assets acquired and liabilities assumed as of the acquisition date. Goodwill acquired in a business combination and determined to have an indefinite useful life is not amortized but tested for impairment at least annually or more frequently if events and circumstances exist that indicate that a goodwill impairment test should be performed. The Company performed its most recent annual goodwill impairment test as of November 30, 2025, and concluded that no impairment existed as of that date. No events or circumstances since the November 30, 2025 annual impairment test were noted that would indicate it was more likely than not a goodwill impairment exists.

Intangible assets included a core deposit premium relating to the Bank's assumption of certain deposit liabilities in the Bremen Bancorp, Inc. acquisition in 2016. The core deposit intangible of \$640,000 was being amortized on a straight-line basis over 8 years. The amortization of the core deposit premium was \$53,000 for the year ended December 31, 2024, and was fully amortized in 2024.

Noninterest Income

Noninterest income is comprised of revenue from contracts with customers. Generally, income is recognized when the transaction is complete, and the customer receives the goods or service. For that revenue (excluding certain revenue associated with financial instruments, transferring and servicing of financial assets and other specific revenue transactions), the Company applies the following five-step approach when recognizing revenue: (i) identify the contract with the customer, (ii) identify the performance obligations, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations, and (v) recognize revenue when (or as) the performance obligation is satisfied. The Company's contracts with customers are generally short-term in nature, with a duration of one year or less, and most contracts are cancellable by either the Company or its customer without penalty.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Foreclosed Assets

Foreclosed assets consist of property that has been repossessed. Collateral obtained through foreclosure is comprised of commercial and residential real estate and other non-real estate property, including automobiles. The assets are initially recorded at the lower of the related loan balance or fair value of the collateral less estimated selling costs, with any valuation adjustments charged to the allowance for loan losses. Fair values are estimated primarily on appraisals when available or quoted market prices of liquid assets. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. These appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated costs to sell. Subsequently, foreclosed assets are valued at the lower of the amount recorded at acquisition date or the current fair value less estimated costs to sell. Foreclosed assets of \$616,000 and \$105,000 are included in other assets on the consolidated balance sheets at December 31, 2025 and 2024, respectively. Further valuation adjustments on these assets, gains and losses realized on sales, and net operating expenses are recorded in other noninterest expenses.

Derivatives

Derivative contracts are offered to customers to assist in hedging their risks of adverse changes in interest rates and foreign exchange rates. The Bank serves as an intermediary between its customers and the markets. Each contract between the Bank and its customers is offset by a contract between the Bank and a counterparty. These contracts do not qualify for hedge accounting. They are carried at fair value, with unrealized gains and losses recorded in other non-interest income.

The Bank has entered into interest rate swap contracts (swap agreements) as an interest rate risk management strategy in accordance with the guidance provided within ASU 2017-12 Derivatives and Hedging (Topic 815) – Targeted Improvements to Accounting for Hedging Activities. Derivatives designated as cash flow hedges are accounted for at fair value. The change in fair value is recorded as a component of other comprehensive income in stockholders' equity. Amounts recorded in other comprehensive income are subsequently reclassified into interest expense when the underlying transaction affects earnings. The swap agreements are accounted for on an accrual basis, with the net interest differential being recognized as an adjustment to interest income or interest expense of the related asset or liability.

Asset Impairment Assessments

The Company reviews long-lived assets, such as fixed assets, intangibles and purchased intangibles subject to amortization, for impairment whenever events or changes in circumstances indicate that the carrying value of such assets may not be fully recoverable. The recoverability of assets to be held and used is measured by a comparison of the carry amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of are separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell and are no longer depreciated. The assets and liabilities of a disposal group classified as held for sale are presented separately in the appropriate asset and liability sections of the consolidated balance sheet.

Securities Sold Under Agreements to Repurchase

Securities sold under agreements to repurchase generally mature within thirty days from the transaction date, with the exception of some agreements which mature in one year or less. Securities sold under agreements to repurchase are included in other borrowed funds on the consolidated balance sheet.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Subordinated Debentures

Debt issuance costs related to a recognized debt liability are presented in the consolidated balance sheet as a direct deduction from the carrying amount of the debt liability.

Off-Balance Sheet Financial Instruments

In the ordinary course of business, the Bank has entered into off-balance sheet financial instruments consisting of commitments to extend credit, and commitments under commercial and standby letters of credit. Such financial instruments are recorded in the consolidated financial statements when they become payable.

Allowance for Credit Losses on Unfunded Commitments

Commitments to extend credit are agreements to lend to a customer as long as no condition established in the contract has been violated. These commitments are generally at variable interest rates and generally have fixed expiration dates or other termination clauses and may require payment of a fee. The commitments for equity lines of credit may expire without being drawn upon. Therefore, the total commitment amounts do not necessarily represent future cash requirements. These commitments may be secured based on management's credit evaluation of the borrower.

The Company estimates expected credit losses over the contractual period in which the Company is exposed to credit risk via a contractual obligation to extend credit unless that obligation is unconditionally cancellable by the Company. The ACL on unfunded commitments is adjusted as a provision for credit loss expense on the consolidated income statement. The estimate includes consideration of the likelihood that funding will occur and an estimate of expected credit losses on commitments expected to be funded over its estimated life. Expected utilization rates are compared to the current funded portion of the total commitment amount as a practical expedient for funded exposure at default. The ACL on unfunded commitments totaled \$900,000 and \$942,000 at December 31, 2025 and 2024, respectively, and is included in other liabilities on the consolidated balance sheets.

Stock-Based Compensation

Compensation cost for stock options granted on or after January 1, 2006 is calculated using the Black-Scholes option-pricing model. Restricted Stock Units ("RSU's") are accounted for in accordance with ASC 718, "Compensation-Stock Compensation." Compensation expense is recognized over the vesting period, which is typically 3 years, based on the grant-date fair value of the RSU's, adjusted for estimated forfeitures. The fair value is determined by reference to the market price of the Company's common stock on the grant date.

Treasury Stock

Purchases of the Company's common stock are recorded at cost as treasury stock. Upon re-issuance for acquisitions, exercises of stock-based awards or other corporate purposes, treasury stock is reduced based upon the average cost basis of shares held. Fair value of the re-issued shares in excess of the average cost of treasury stock is recorded as capital surplus.

Income Taxes

Income taxes are provided based on income reported for financial statement purposes and do not necessarily represent amounts currently payable under tax laws. Deferred income taxes are provided for temporary differences between the financial reporting basis and income tax basis of the Company's assets and liabilities, net operating losses, and tax credit carryforwards. Deferred tax assets and liabilities are measured using the enacted tax rates that are expected to apply to taxable income when such assets and liabilities are anticipated to be settled or realized. The effect on deferred tax assets and liabilities of a change

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

in tax rates is recognized as tax expense or benefit in the period that includes the enactment date of the change. In determining the amount of deferred tax assets to recognize in the consolidated financial statements, the Company evaluates the likelihood of realizing such benefits in future periods. A valuation allowance is provided if it is more likely than not that all or some portion of the deferred tax asset will not be realized. The Company recognizes interest and penalties related to income taxes within income tax expense in the consolidated statements of income.

The Company and its subsidiaries file a consolidated federal income tax return.

Concentration of Credit

The Bank's loans, commitments, and commercial and standby letters of credit have been granted primarily to customers in the St. Louis metropolitan area, and St. Charles and Jefferson counties in Missouri. Although the Bank has a diversified loan portfolio, a substantial portion of its customers' ability to service their loans is dependent upon the real estate economic sector. Most of these customers are depositors of the Bank. Investments in state and municipal securities also involve governmental entities within the Bank's market area. Commercial and standby letters of credit were granted primarily to commercial borrowers.

Accounting Guidance Issued But Not Yet Adopted

FASB ASU No. 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures - In December 2023, the FASB issued ASU No. 2023-09, which requires entities other than public business entities ("PBEs") to make qualitative disclosures regarding the nature and effect of reconciling items, as well as individual jurisdictions, that result in a significant difference between the statutory and effective tax rates. Entities other than PBEs are permitted, but not required, to disclose in a tabular, quantitative reconciliation. The pronouncement also requires entities to disclose income taxes paid, net of refunds, disaggregated by federal, state and foreign taxes for annual periods and to disaggregate the information by jurisdiction based on a quantitative threshold, among other things. The ASU is effective for entities other than PBEs for fiscal years beginning after December 15, 2025, with early adoption permitted. The Company will update the related disclosures upon adoption and does not expect a material impact on the consolidated financial statements.

FASB ASU No. 2025-06, Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software - In September 2025, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2025-06, *Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software*. This ASU eliminates the previous "project stage" model and introduces a principles-based approach for capitalizing internal-use software costs. Under the new guidance, capitalization begins when (i) management authorizes and commits to funding the project and (ii) it is probable the project will be completed and used for its intended purpose. The ASU also consolidates website development guidance (previously ASC 350-50) into ASC 350-40 and aligns disclosure requirements for capitalized internal-use software with those for property, plant, and equipment. The amendments are effective for annual reporting periods beginning after December 15, 2027, with early adoption permitted. The Company is currently evaluating the impact of this guidance; however, it is not expected to have a material effect on the consolidated financial statements other than additional disclosures. The guidance will be applied prospectively upon adoption.

NOTE 2 — CASH AND DUE FROM BANKS

The Bank is required to maintain cash reserves based on the level of certain of its deposits. This reserve may be met by funds on deposit with the Federal Reserve Bank ("FRB") and cash on hand. In March 2020, the FRB lowered the reserve requirement ratios to 0%. Therefore, the Bank had no required reserve balance at December 31, 2025 and 2024.

Gross realized losses on sales	(1,770)	(440)

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

As a result of events in the banking industry during the first quarter of 2023 related to the closure of certain financial institutions, management evaluated its investment portfolio and determined the Bank had one investment in a corporate debt security associated with the closure of one of the financial institutions with a book value of \$4.0 million. Management evaluated the value of the corporate debt security and determined the corporate debt security was permanently impaired considering (1) the severity and duration of the impairment, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Bank to hold the security for a period of time sufficient for a recovery in value, resulting in the recognition of a loss of \$4.0 million on the corporate debt security. In 2024, the corporate debt security was sold resulting in the recognition of a gain of \$1.1 million.

Unrealized losses and fair values for investment securities available for sale at December 31, 2025 and 2024, for which an allowance for credit losses has not been recorded, aggregated by investment category and length of time that individual securities have been in an continuous unrealized loss position, are summarized below.

(dollars in thousands)	Less Than 12 Months		12 Months or Greater		Total

Corporate debt	1,909	(92)	49,930	(5,154)	51,839	(5,246)
Total available for sale securities	<u>\$ 62,150</u>	<u>\$ (1,579)</u>	<u>\$ 197,383</u>	<u>\$ (13,683)</u>	<u>\$ 259,533</u>	<u>\$ (15,262)</u>

At December 31, 2025, 107 investment securities available for sale had unrealized losses with aggregate depreciation of 3.1% from the their amortized cost basis. For all of the above investment securities, the unrealized losses were generally due to changes in interest rates, and unrealized losses were considered to be temporary as the fair value is expected to recover as the securities approach their respective maturity dates. The issuers are of high quality and all principal amounts are expected to be paid when securities mature. The Bank does not intend to sell and it is likely that the Company will not be required to sell the securities prior to their anticipated recovery.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

NOTE 4 — LOANS

The following table presents total loans outstanding, by portfolio class, at December 31, 2025 and 2024:

(dollars in thousands)	2025	2024
Commercial and industrial	\$ 541,506	\$ 573,360
Secured by real estate:		
Owner-occupied real estate	320,411	283,161
Commercial real estate	997,595	920,302
Real estate construction	242,035	165,530
Total secured by real estate loans	1,560,041	1,368,993
Consumer:		
Mortgage 1-4 family	195,354	213,908
Home equity	42,899	37,835
Individual	73,500	73,544
Total consumer loans	311,753	325,287
Total loans, gross	2,413,300	2,267,640
Less: Allowance for credit losses	(31,123)	(31,190)
Total loans, net	\$ 2,382,177	\$ 2,236,450

Loans held for sale, included in mortgage 1-4 family, totaled \$12.0 million and \$4.9 million as of December 31, 2025 and 2024, respectively.

Loans pledged at the FHLB as collateral for borrowings and letters of credit obtained to secure public deposits totaled \$843.5 million and \$888.5 million at December 31, 2025 and 2024, respectively. Loans pledged to the FRB totaled \$298.2 million and \$559.7 million at December 31, 2025 and 2024, respectively.

Allowance for Credit Losses

Management estimates the ACL balance using relevant available information from internal and external sources relating to past events, current conditions, and reasonable and supportable forecasts. Historical credit loss experience provides the basis for the estimation of expected credit losses. The cumulative loss rate used as the basis for the estimate of credit losses is comprised of comparable bank historical loss experience beginning in 2004. When historical credit loss experience is not sufficient for a specific portfolio, the Company may supplement its own portfolio data with external models or data. Due to the continued economic uncertainty in the markets in which the Company operates, the Company will continue to utilize a forecast period of 12 months with an immediate reversion to historical loss rates beyond this forecast period in its ACL estimate.

Balance, end of year	<u>\$ 562,032</u>	<u>\$ 1,355,000</u>	<u>\$ 319,418</u>	<u>\$ 2,236,450</u>

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

In calculating expected credit losses, the Company individually evaluates loans on watchlist status or worse with a balance greater than \$1.0 million for loans secured by real estate and greater than \$500,000 for commercial and industrial loans, loans past due 90 days or more and still accruing interest, and loans that do not share risk characteristics with other loans in the pools. The following table presents amortized cost basis of individually evaluated loans on nonaccrual status as of December 31, 2025 and 2024.

	December 31, 2025			December 31, 2024		
	Nonaccrual with Allowance	Nonaccrual with no Allowance	Total Nonaccrual	Nonaccrual with Allowance	Nonaccrual with no Allowance	Total Nonaccrual
(dollars in thousands)						
Commercial and industrial	\$ 8,928	\$ -	\$ 8,928	\$ 1,155	\$ -	\$ 1,155
Secured by real estate:						
Owner-occupied real estate	2,215	-	2,215	1,987	-	1,987
Commercial real estate	14,644	-	14,644	531	-	531
Real estate construction	57	-	57	71	-	71
Consumer:						
Mortgage 1-4 family	2,737	-	2,737	1,587	-	1,587
Home equity	328	-	328	283	-	283
Individual	131	-	131	209	-	209
Total loans	<u>\$ 29,040</u>	<u>\$ -</u>	<u>\$ 29,040</u>	<u>\$ 5,823</u>	<u>\$ -</u>	<u>\$ 5,823</u>

There was no interest income recognized on nonaccrual loans during the years ended December 31, 2025 and 2024 while the loans were in nonaccrual status.

Collateral Dependent Loans

A collateral dependent financial loan relies solely on the operation or sale of the collateral for repayment. In evaluating the overall risk associated with a loan, the Company considers character, overall financial condition and resources, and payment record of the borrower; the prospects for support from any financially responsible guarantors; and the nature and degree of protection provided by the cash flow and value of any underlying collateral. However, as other sources of repayment become inadequate over time, the significance of the collateral's value increases, and the loan may become collateral dependent. The Company had \$66.7 million and \$56.9 million of collateral dependent loans secured by real estate or business assets as of December 31, 2025 and 2024, respectively.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Aging Status

The aging status of the recorded investment in loans by portfolio as of December 31, 2025 and 2024 was as follows:

(dollars in thousands)	Current or Less Than 30 Days Past Due	30-89 Days Past Due	90 Days Past Due and Still Accruing Interest	Nonaccrual	Total
December 31, 2025					
Commercial and industrial	\$ 532,136	\$ 370	\$ 72	\$ 8,928	\$ 541,506

Loan Restructurings

The Company evaluates all loan restructurings according to the accounting guidance for loan modifications to determine if the restructuring results in a new loan or a continuation of the existing loan. Loan modifications to borrowers experiencing financial difficulties that result in a direct change in the timing or amount of contractual cash flows include situations where there is principal forgiveness, interest rate reductions, other-than-insignificant payment delays, term extensions, and combinations of the listed modifications. Therefore, the disclosures related to loan restructurings are for modifications which have a direct impact on cash flows.

The Company may offer various types of concessions when modifying a loan. Loans modified in a loan restructuring often involve temporary interest-only payments, term extensions, and converting revolving credit lines to term loans. Additional collateral, a co-borrower, or a guarantor is often requested.

Loans modified in a loan restructuring may have the financial effect of increasing the specific allowance associated with the loan. An allowance for loans that have been modified in a loan restructuring is measured based on the discounted cash flow model, the loan's observable market price, or the estimated fair value of the collateral, less any selling costs, if the loan is collateral dependent. Management exercises significant judgment in developing these estimates.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Commercial and consumer loans modified in a loan restructuring are closely monitored for delinquency as an early indicator of possible future default. If loans modified in a loan restructuring subsequently default, the Company evaluates the loan for possible further loss. The allowance may be increased, adjustments may be made in the allocation of the allowance, or partial charge-offs may be taken to further write-down the carrying value of the loan.

In some cases, the Company will modify a loan by providing multiple types of concessions. Typically, one type of concession, such as a term extension, is granted initially. If the borrower continues to experience financial difficulty, another concession such as an interest rate reduction or principal forgiveness, may be granted.

During the year ended December 31, 2025, the company restructured two commercial and industrial loans to one borrower experiencing financial difficulties with principal balances at the time of restructuring of \$7.1 million. The borrower was provided with a forbearance agreement specifying a period of interest only payments at a reduced interest rate in exchange for additional collateral pledged to the loans. The loans were placed on non-accrual status.

Credit Quality Indicators

The Company uses an internal rating system to monitor ongoing credit quality of its loan portfolio. The internal rating system is a series of grades reflecting management's risk assessment, based on its analysis of the borrower's financial condition. Credit risk grades are reviewed continuously by management based on a variety of sources, including, but not limited to, financial information, collateral valuation updates, and market information. As this information becomes available management analyzes the resulting ratings, as well as other external statistics and factors, to track loan performance. The "average or lower risk" category represents a range of loan grades that are comprised of loans with minimal risk at the lower end of the grading system to higher, though still acceptable, risk at the upper range end. Movement of risk through the various grade levels in the "average or lower risk" category is monitored for early identification of credit deterioration. The "watch" rating is attached to loans where the borrower exhibits material negative financial trends due to borrower specific or systemic conditions that, if left uncorrected, threaten its capacity to meet its debt obligations. The watch list rating is a transitional grade that is closely monitored for improvement or deterioration. The "substandard" rating is applied to loans where the borrower exhibits well-defined weaknesses that jeopardize its continued performance and are of a severity that the distinct possibility of default exists. The "doubtful" rating is applied to loans when collection is highly questionable and improbable, but its classification as an estimated loss is deferred until a more exact status can be determined. A "loss" rating is a loan considered uncollectible and of such little value that its continuance as an active bank asset is not warranted.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2025 and 2024

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Loans Held for Sale

In addition to the portfolio of loans which are intended to be held to maturity, the Bank historically originates loans which it intends to sell in secondary markets. Loans classified as held for sale primarily consist of fixed rate residential mortgages. These loans are sold in the secondary market, generally within three months of origination. The following table presents information about loans held for sale at December 31, 2025 and 2024:

(dollars in thousands)	2025	2024
Residual mortgage loans, at cost	\$ 12,016	\$ 4,917
Valuation allowance	-	-
Total loans held for sale, at lower of cost or fair value	\$ 12,016	\$ 4,917
Net gains on sales of loans held for sale during the year	\$ 3,315	\$ 2,826

Residential Mortgage Loan Servicing

The Bank serviced residential mortgage loans for others (primarily for Federal Home Loan Mortgage Corporation and the Federal Home Loan Bank of Des Moines) with unpaid principal balances of \$60.1 million and \$55.2 million at December 31, 2025 and 2024, respectively. The carrying value of the mortgage servicing rights is not material to the financial statements and are not included in the consolidated balance sheets.

United States Small Business Administration (“SBA”) Loan Servicing

The Company serviced SBA loans with unpaid principal balances of \$35.0 million and \$27.0 million at December 31, 2025 and 2024, respectively. SBA loan servicing rights of \$718,000 and \$493,000 at December 31, 2025 and 2024, respectively, are reflected in other assets in the consolidated balance sheets.

NOTE 5 — PREMISES AND EQUIPMENT, NET

A summary of premises and equipment at December 31, 2025 and 2024 is as follows:

(dollars in thousands)	2025	2024
Land	\$ 3,577	\$ 4,282
Land improvements	1,388	1,545
Building and improvements	26,191	26,343
Vaults	365	365
Furniture and equipment	15,590	15,366
Software	4,872	4,850
Fixed assets in process	7	88
	51,990	52,839
Less: Accumulated depreciation	(39,921)	(40,005)
	\$ 12,069	\$ 12,834

Depreciation expense for the years ended December 31, 2025 and 2024 was \$1.4 million.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

NOTE 6 — LEASES

The Company has entered into operating leases, primarily for banking offices and operating facilities, which have remaining lease terms of 3 months to 21 years, some of which may include options to extend the lease terms for up to an additional 10 years. The options to extend are included if they are reasonably certain to be exercised. The following table summarizes supplemental balance sheet and cash flow information related to leases:

(dollars in thousands)	Years Ended December 31,	
	2025	2024
Lease balances:		
Operating lease right-of-use assets	\$ 6,680	\$ 6,981
Operating lease liabilities	\$ 6,753	\$ 7,030
Supplemental information:		
Weighted average remaining lease term	13.57 years	14.65 years
Weighted average discount rate	2.03%	1.96%
Cash flow information:		
Operating cash flows from operating leases	\$ 683	\$ 677
Right-of-use assets obtained in exchange for lease obligations	\$ 269	\$ 39

The components of lease expense (included in occupancy expense in the consolidated statements of income) for the years ended December 31, 2025 and 2024 was as follows:

(dollars in thousands)	2025	2024
Operating lease cost	\$ 734	\$ 741
Income from subleases	(89)	(121)
Net lease cost	\$ 645	\$ 620

The projected future minimum rental payments under the terms of the operating leases as of December 31, 2025 are as follows:

(dollars in thousands)	Amount
2026	\$ 695
2027	692
2028	694
2029	696
2030	657
Thereafter	4,279
Total future minimum lease payments	7,713
Less imputed interest	(960)
Total operating lease liabilities	\$ 6,753

As a lessor, the Company leases office space and parking lot space to outside parties. Revenues recorded in connection with these leases and reported in occupancy expense in our consolidated statements of income were \$392,000 and \$297,000 during the years ended December 31, 2025 and 2024, respectively.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

NOTE 7 — DERIVATIVE INSTRUMENTS

Interest Rate Swap Contracts

The Bank entered into interest rate swap contracts sold to commercial customers who wish to modify their interest rate sensitivity. These swaps are offset by contracts simultaneously purchased by the Company from other financial dealer institutions with mirror-image terms. Because of the mirror-image terms of the offsetting contracts, in addition to collateral provisions which mitigate the impact of non-performance risk, changes in the fair value subsequent to initial recognition have a minimal to no effect on earnings. These derivative contracts do not qualify for hedge accounting.

The notional amounts of these customer derivative instruments and offsetting counterparty derivative instruments was \$39.4 million and \$39.5 million at December 31, 2025 and 2024, respectively, with a weighted-average remaining term of 3.78 years and 4.82 years, respectively. The fair value of the customer derivative instruments and the offsetting counterparty derivative instruments was \$2.9 million and \$4.7 million at December 31, 2025 and 2024, respectively, which are included in other assets and other liabilities, respectively, on the consolidated balance sheets. Changes in the fair value of the customer derivative instruments and offsetting counterparty derivative instruments was \$2.8 million and \$5.0 million for the years ended December 31, 2025 and 2024, respectively, and are recorded in other noninterest expense in the consolidated statements of income. For the derivative asset, interest is accrued using fixed rates as defined in the agreements, and for the derivative liability, interest is charged using a variable rate based on one-month SOFR plus 304 basis points.

Cash Flow Hedges

In March 2020, the Company entered into two interest rate swap agreements with a total notional amount of \$40.0 million for a period of seven years. The swap agreements, of which \$20.0 million matures on March 23, 2027 and \$20.0 million matures on April 28, 2027, have a fixed rate of interest of 0.81% and the Bank receives interest at a variable rate equal to the 3-month SOFR.

In May 2020, the Company entered into an interest rate swap agreement with a notional amount of \$20.0 million for a period of seven years. The swap agreement matures on July 1, 2027 and has a fixed rate of interest of 0.615% and the Bank receives interest at a variable rate equal to the 3-month SOFR rate.

Cash flow hedges are accounted for at fair value. The fair value of the cash flow hedges was \$2.6 million and \$5.2 million at December 31, 2025 and 2024, respectively, and is included in other assets on the consolidated balance sheets. As of December 31, 2025 and 2024, gain included in accumulated other comprehensive loss, net of tax, for cash flow hedges was \$2.0 million and \$3.9 million, respectively. Related to the swaps identified above, during the next twelve months the Company estimates that an additional \$1.5 million will be reclassified as a reduction to interest expense.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

NOTE 8 — TIME DEPOSITS

At December 31, 2025, the scheduled maturities of time deposits are as follows:

(dollars in thousands) Year ending December 31,	Amount
2026	\$ 836,940
2027	23,172
2028	3,653
2029	1,691
2030	1,229
	\$ 866,685

NOTE 9 — FHLB ADVANCES AND OTHER BORROWINGS

The following table summarizes our FHLB advances and other borrowings at December 31, 2025 and 2024:

(dollars in thousands)	2025	2024
Securities sold under agreements to repurchase	\$ 15,163	\$ 21,086
FHLB advances	90,000	85,000
Total FHLB advance and other borrowings	\$ 105,163	\$ 106,086

Securities sold under agreements to repurchase generally mature within one year. The repurchase agreements are secured by U.S. government agency securities and state and municipal securities. Securities sold under agreements to repurchase were collateralized by pledged securities of \$23.8 million and \$25.4 million at December 31, 2025 and 2024, respectively. Summarized below is information on securities sold under repurchase agreements at December 31, 2025 and 2024:

(dollars in thousands)	2025	2024
Average Balance During the Year	\$ 16,710	\$ 21,718
Average Interest Rate During the Year	2.58%	2.97%
Maximum Month-End Balance During the Year	\$ 18,126	\$ 25,903

FHLB advances are under a master borrowing agreement which assigns all investments in FHLB stock as well as qualifying first mortgage loans and qualifying commercial real estate loans as collateral to secure the amounts borrowed. FHLB advances are under different terms and bear a weighted-average interest rate of 3.75% and 3.73% at December 31, 2025 and 2024, respectively. The Bank had the additional capacity to borrow funds from the FHLB of up to \$303.7 million at December 31, 2025.

At December 31, 2025, the scheduled maturities of FHLB borrowings are as follows:

(dollars in thousands) Year Ending December 31,	Amount
Overnight	\$ -
2026	70,000
2027	20,000
	\$ 90,000

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

The Bank had the capacity to borrow funds from the Federal Reserve Bank of up to \$246.3 million at December 31, 2025. The Bank also had capacity to borrow from other correspondent banks totaling 32.8 million at December 31, 2025. The Holding Company had the capacity to borrow funds from Midwest Independent Bank of up to \$15.0 million at December 31, 2025, on a line of credit at a floating rate with the prime rate minus 0.5% quoted in the Wall Street Journal and a floor of 4.00%. The line is currently set to mature on June 1, 2026. The loan is secured with Midwest BankCentre stock and includes loan covenants relating to the bank maintaining a “well capitalized” regulatory status and meeting certain credit and performance ratios.

NOTE 10 — SUBORDINATED DEBENTURES

The following table summarizes the Company’s subordinated debt at December 31, 2025 and 2024:

(dollars in thousands)	Subordinated Debt				
	Fixed to Float				
	Issued July 2020	Issued June 2021	Issued June 2021	Issued October 2025	Total
At December 31, 2025					
Subordinated debentures	\$ -	\$ 25,000	10,000	\$ 50,000	\$ 85,000
Carrying Amount	-	24,898	9,959	49,267	84,124
Current Rate	N/A	3.625%	4.00%	7.00%	
At December 31, 2024					
Subordinated debentures	\$ 33,250	\$ 25,000	\$ 10,000	\$ -	\$ 68,250
Carrying Amount	33,190	24,871	9,875	-	67,936
Current Rate	5.75%	3.625%	4.00%	N/A	
Maturity Date	7/15/2030	6/15/2031	6/15/2036	10/15/2035	
Optional Redemption Date	7/15/2025	6/15/2026	6/15/2031	10/15/2030	
Fixed to variable conversion date	7/15/2025	6/15/2025	6/15/2031	10/15/2030	
Variable rate	3-month SOFR plus 5.675%	3-month SOFR plus 2.95%	3-month SOFR plus 2.67%	3-month SOFR plus 3.68%	
Interest Payment Terms	Quarterly	Quarterly	Quarterly	Semiannually	

The value of the subordinated debentures have been reduced by the debt issuance costs, which are being amortized on a straight-line basis through the earlier of the redemption option or the maturity date. All of the subordinated debentures above may be included in Tier 2 capital (with certain limitations applicable) under current regulatory guidelines and interpretations.

In October 2025, the Company redeemed its \$33.25 million outstanding Fixed-to-Floating Rate subordinated notes issued in 2020 at par plus accrued interest, pursuant to the call provision of the original agreement and with prior approval from the Federal Reserve. The redemption was funded primarily from the net proceeds of the 2025 Notes issuance. The interest rate on the subordinated notes was 5.75% and were originally scheduled to mature in 2030.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

NOTE 11 — ACCUMULATED OTHER COMPREHENSIVE LOSS, NET OF TAX

The following table summarizes the components of accumulated other comprehensive loss, net of tax, at December 31, 2025 and 2024:

(dollars in thousands)	<u>2025</u>	<u>2024</u>
Unrealized losses on investment securities available-for-sale	\$ (3,235)	\$ (14,947)
Unrealized gains on cash flow swaps	2,592	5,200
Income tax effect	156	2,355
Accumulated other comprehensive loss, net of tax	<u>\$ (487)</u>	<u>\$ (7,392)</u>

NOTE 12 — INCOME TAXES

The components of income taxes for the years ended December 31, 2025 and 2024 were as follows:

(dollars in thousands)	<u>2025</u>	<u>2024</u>
Current	\$ 9,013	\$ 7,012
Deferred	(1,313)	(1,517)
	<u>\$ 7,700</u>	<u>\$ 5,495</u>

Income tax expense differs from the federal statutory rates for the years ended December 31, 2025 and 2024 for the reasons shown in the following table:

(dollars in thousands)	<u>2025</u>	<u>2024</u>
Income taxes at effective statutory rate of 21%	\$ 7,874	\$ 6,605
State income tax tax, net of federal benefit	343	(96)
Tax-exempt interest income	(21)	(22)
Bank owned life insurance	(558)	(519)
Federal tax credits	(1,853)	(1,352)
Tax credit investment amortization	1,950	1,005
Other, net	(35)	(126)
	<u>\$ 7,700</u>	<u>\$ 5,495</u>

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

December 31, 2025 and 2024

Deferred tax assets, net in the accompanying consolidated balance sheets at December 31, 2025 and 2024 include the following amounts of deferred tax assets and liabilities:

(dollars in thousands)	2025	2024
Deferred tax assets:		
Allowance for credit losses	\$ 7,586	\$ 7,602
Credit marks on loans	15	34
Net operating loss carryforward	606	672
Tax credits	569	68
Accrued incentive units	3,414	2,946
Securities available-for-sale-other	155	2,355
Investment in partnerships	1,795	1,346
Operating lease liabilities	1,646	1,713
Deferred loan fees, net	942	839
Other	1,741	1,657
Deferred tax assets	\$ 18,469	\$ 19,232
Deferred tax liabilities:		
Deferred loan costs, net	(822)	(822)
Depreciation and amortization	(222)	(25)
Operating lease right-of-use assets	(1,628)	(1,701)
Deferred tax liabilities	\$ (2,672)	\$ (2,548)
Net deferred tax assets	\$ 15,797	\$ 16,684

Net deferred tax assets are included in other assets in the consolidated balance sheets. Income taxes currently refundable at December 31, 2025 and 2024 are \$3.4 million and \$1.6 million, respectively, and are included in other liabilities on the consolidated balance sheets.

When the Company acquired Bremen Bancorp, Inc., it acquired federal and state net operating loss carryforwards that are subject to the provisions of Internal Revenue Code Section 382. Such loss carryforwards will expire between 2032 and 2036. The Company's income tax returns are available for examination for the statutory period.

NOTE 13 — EMPLOYEE BENEFIT PLAN

The Bank has a 401(k) plan which covers substantially all full-time employees of the Bank. The Bank's contribution is discretionary and determined annually. Total contributions were \$954,000 and \$878,000 for the years ended December 31, 2025 and 2024, respectively.

NOTE 14 — STOCK-BASED COMPENSATION

The Company awards select employees and directors' certain forms of share-based incentives in the form of stock options, an equity participation plan, and a restricted stock unit plan. The awards are granted by the compensation committee, which is comprised of members of the board of directors.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Stock Options

Under the stock option plan, the Company may grant options for up to 243,000 shares of common stock. The exercise price of each option is equal to the market price of the Company's stock on the date of the grant as defined by the agreement. The maximum term of the option is ten years and the options vest over three years. Vested options may be exercised by the individual at any time before the expiration of the grant.

In determining compensation cost, the Black–Scholes option–pricing model is used to estimate the fair value of options on the date of grant. The Black–Scholes model is a closed–end model that uses the following model assumptions:

- Expected volatility is based on the historical volatility of the Company's stock. The Company uses historical exercise behavior and other factors to estimate the expected term of the options, which represents the period that the options granted are expected to be outstanding. The risk–free rate for the expected term is based on the U.S. Treasury zero coupon spot rates in effect at the time of the grant.

Below are the fair values of stock options granted using the Black–Scholes option–pricing model, including the model assumptions for those grants for the years ended December 31, 2025 and 2024.

	<u>2025</u>	<u>2024</u>
Weighted average per share fair value at grant date	\$ 28.88	\$ 28.10
Assumptions:		
Dividend yield	2.02%	2.03%
Volatility	4.57%	3.95%
Risk-free interest rate	4.35%	4.67%
Expected term	10 years	10 years

A summary of the Company's nonvested shares at December 31, 2025 and 2024 and changes during the year are as follows:

	<u>Number of Shares</u>	<u>Weighted- Average Grant Date Fair Value</u>

Exercisable at December 31, 2025	<u>20,450</u>	\$ 119.88	5.81 years	\$ 1,274

Additional information about stock options exercised for the years ended December 31, 2025 and 2024 is presented below:

(dollars in thousands)	2025	2024
Intrinsic value of options exercised	\$ 300	\$ 172
Cash received from options exercised	\$ 289	\$ 194
Tax benefit realized from options exercised	\$ 73	\$ 42

As of December 31, 2025, there was \$190,235 of unrecognized compensation cost (net of estimated forfeitures) related to unvested options and stock awards, which is expected to be recognized over a weighted average period of 1.82 years.

For the years ended December 31, 2025 and 2024, the Bank recognized \$124,000 and \$86,000, respectively, as compensation cost and recorded related tax benefits of \$29,900 and \$21,000, respectively.

Equity Participation Plan

The Company adopted an Equity Participation Plan (the "Plan") in 2004. The Plan calls for awarding "performance units" to certain employees of the Bank. Under the Plan, the Bank may grant rights up to 10 percent of outstanding shares of common stock. The value of the unit is based on book value with a multiple based on a combination of years of service and age. The accrued liability associated with the Plan is \$14.0 million and \$12.1 million as of December 31, 2025 and 2024, respectively. Compensation costs associated with the Plan was \$3.2 million and \$2.9 million for the years ended December 31, 2025 and 2024, respectively.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Restricted Stock Unit Plan

The Company adopted a Restricted Stock Unit Plan (the "Plan") in 2022 to attract and retain employees, align employee and shareholder interests, and promote long-term business success. The Plan provides for the grant of Restricted Stock Units ("RSUs") to eligible employees, subject to terms and conditions set forth in the Plan and individual Award Agreements. Each RSU represents an unfunded and unsecured promise to deliver shares of common stock, cash, or other property, subject to vesting and other restrictions. No shares are issued at grant, and participants have no voting or dividend rights until settlement. Compensation expense is recognized over the vesting period, which is typically 3 years, based on the grant-date fair value of the RSU's, adjusted for estimated forfeitures. The fair value is determined by reference to the market price of the Company's common stock on the grant date.

As of December 31, 2025, total unrecognized compensation expense related to unvested RSUs was \$414,000 which is expected to be recognized over a weighted-average period of 1.80 years.

The total fair value of the shares vested during the year ended December 31, 2025, was \$171,000.

NOTE 15 — PER SHARE INFORMATION

The Company's net book value per share was \$155.07 and \$138.59 at December 31, 2025 and 2024, respectively, based upon the shares outstanding at those dates (issued and outstanding less treasury shares). Tangible book value per share, which adjusts total stockholders' equity by the balance of intangible assets, was \$145.76 and \$129.04 at December 31, 2025 and 2024, respectively.

Earnings per share ("EPS") are calculated utilizing the two-class method. Basic EPS is calculated by dividing earnings available to common stockholders by the weighted average number of common shares outstanding. Diluted EPS is calculated by dividing earnings available to common stockholders by the weighted average number of shares adjusted for the dilutive effect of common stock awards. Presented below are the calculations for basic and diluted EPS for the years ended December 31, 2025 and 2024:

(dollars in thousands, except per share data)	2025	2024
Net income available to shareholders	<u>\$ 29,794</u>	<u>\$ 25,960</u>
Weighted-average shares outstanding	1,845,478	1,767,202
Effect of dilutive shares:		
Stock option plan	5,326	4,199
Restricted stock unit plan	2,290	-
Total weighted-average diluted shares	<u>1,853,094</u>	<u>1,771,401</u>
Basic EPS	\$ 16.14	\$ 14.69
Diluted EPS	\$ 16.08	\$ 14.66

NOTE 16 — CAPITAL REQUIREMENTS

The Company is not subject to any separate capital requirements from those of the Bank. The Bank is subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's consolidated financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action provisions, the Company must meet specific capital guidelines that involve quantitative measures of the Company's assets, liabilities, and certain off-balance sheet items as calculated under regulatory

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

accounting practices. The Company's capital amounts, and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Company to maintain minimum amounts and ratios of total and Tier I Capital to risk-weighted assets, Tier I Capital to average assets, and Common Equity Tier I Capital to risk weighted assets. Management believes, as of December 31, 2025 and 2024, the Company meets all capital adequacy requirements to which it is subject.

As of December 31, 2025, the most recent notification from the Federal Reserve System categorized the Company as Well Capitalized under the regulatory framework for prompt corrective action. There are no conditions or events since that notification that management believes have changed the institution's category.

The Company's actual capital amounts and ratios are also presented in the following table.

(dollars in thousands)	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
December 31, 2025

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

NOTE 17 — FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of an asset or liability is the exchange price that would be received by selling that asset or paid in transferring that liability (exit price) in an orderly transaction occurring in the principal market (or most advantageous market in the absence of a principal market) for such asset or liability. ASC Topic 820, Fair Value Measurement, establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

- Level 1 – Unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2 – Significant other observable inputs other than Level 1, including quoted prices for similar assets and liabilities in active markets, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data.
- Level 3 – Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Estimated fair values have been determined by management using available market information and appropriate valuation methodologies. However, considerable judgment is required in interpreting market data to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that the Bank could realize in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

The Company used the following methods and significant assumptions to estimate the fair value of each type of financial instrument:

Cash and cash equivalents – The carrying amounts are a reasonable estimate of fair value.

Investment securities, available-for-sale – The fair value of Level 1 available-for-sale securities are based on unadjusted, quoted prices from exchanges in active markets. The fair value of Level 2 available-for-sale securities are based on an independent pricing service for identical assets or significantly similar securities. The pricing service uses a variety of techniques to arrive at fair value including market maker bids, quotes and pricing models. The inputs to the pricing models include recent trades, benchmark interest rates, spreads and actual and projected cash flows.

Changes in fair value are recorded in other comprehensive income. The fair values of securities are priced by a third-party pricing service, which are based on observable market inputs. Valuation methods and inputs, by class of security:

- *U.S. government and federal agency obligations* - U.S. treasury bills, bonds and notes are valued using data from active market makers and inter-dealer brokers.
- *Government-sponsored enterprise obligations* - Government-sponsored enterprise obligations are valued using cash flow valuation models. Inputs used are live market data, cash settlements, Treasury market yields, and floating rate indices such as LIBOR, Constant Maturity Treasury rates, and Prime.
- *State and municipal obligations* – A yield curve is generated and applied to bond sectors, and individual bond valuations are extrapolated. Inputs used to generate the yield curve are bellwether issue levels, established trading spreads between similar issuers or credits, historical trading spreads over widely accepted market benchmarks, new issue scales, and verified bid information.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Bid information is verified by corroborating the data against external sources such as broker-dealers, trustees/paying agents, issuers, or non-affiliated bondholders.

- *Mortgage and asset-backed securities* – Collateralized mortgage obligations and other asset-backed securities are valued at the tranche level. For each tranche valuation, the process generates predicted cash flows for the tranche, applies a market based (or benchmark) yield/spread for each tranche, and incorporates deal collateral performance and tranche level attributes to determine tranche-specific spreads to adjust the benchmark yield. Tranche cash flows are generated from new deal files and prepayment/default assumptions. Tranche spreads are based on tranche characteristics such as average life, type, volatility, ratings, underlying collateral and performance, and prevailing market conditions. The appropriate tranche spread is applied to the corresponding benchmark, and the resulting value is used to discount the cash flows to generate an evaluated price.

Valuation of agency pass-through securities, typically issued under GNMA, FNMA, FHLMC, and SBA programs, are primarily derived from information from the To Be Announced (“TBA”) market. This market consists of generic mortgage pools which have not been received for settlement. Snapshots of the TBA market, using live data feeds distributed by multiple electronic platforms, are used in conjunction with other indices to compute a price based on discounted cash flow models.

- *Other debt securities* – Other debt securities are valued using active markets and inter-dealer brokers as well as bullet spread scales and option adjusted spread. The spreads and models use yield curves, terms and conditions of the bonds, and any special features (e.g., call or put options and redemption features.)

Loans, net – The fair value of loans was estimated utilizing discounted cash flow calculations that applied interest rates currently being offered for similar loans to borrowers with similar risk profiles. The fair value of loans is also net of the allowance for credit losses and unearned income.

Impaired loans – Impaired loans are carried at the present value of estimated future cash flows using the loan’s existing rate or the fair value of collateral if the loan is collateral dependent. Impaired loans are evaluated and valued at the time the loan is identified as impaired at the lower of cost or market value. For collateral dependent impaired loans, market value is measured based on the value of collateral securing these loans and is classified as Level 3 in the fair value hierarchy. These fair values are estimated primarily on appraisals which may utilize a single valuation approach or a combination of approaches including comparable sales and income approach.

Loans held for sale – The fair value of loans held for sale is estimated utilizing discounted cash flow calculations that apply interest rates currently being offered for similar loans to borrowers with similar risk profiles.

Bank owned life insurance – Fair value is estimated using actuarial data based on mortality rates and effective annual interest rates.

Derivatives (Assets and Liabilities) – The fair value is estimated utilizing discounted cash flow calculations that apply interest rates currently being offered on similar instruments.

Deposits – The fair value for non-time deposits is by definition, equal to the amount payable on demand at the balance sheet date. The fair value for time deposits is estimated utilizing discounted cash flow calculations that apply interest rates currently being offered on similar time deposits.

FHLB advances and other borrowings – The carrying value of securities sold under repurchase agreements is a reasonable estimate of fair value. FHLB advances fair value is estimated utilizing discounted cash flow calculations that apply interest rates currently being offered on similar borrowings.

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Subordinated debentures, net – The fair value is estimated utilizing discounted cash flow calculations that apply interest rates currently being offered on similar instruments.

The fair value estimates presented herein are based on pertinent information available to management as of December 31, 2025 and 2024. Although management is not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for the purposes of these consolidated financial statements since these dates.

NOTE 18 — COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Bank makes various commitments and incurs certain contingent liabilities that are not presented in the accompanying consolidated financial statements. The commitments and contingent liabilities include commitments to extend credit and standby letters of credit. Commitments to extend credit aggregated \$787.0 million at December 31, 2025. Commitments under standby letters of credit aggregated \$30.4 million at December 31, 2025. The Bank does not anticipate any material losses as a result of the commitments and contingent liabilities. The Bank generally requires collateral or other security to support financial instruments with credit risk.

The Company is subject to certain claims and litigation in the normal course of business. In the opinion of management, the outcome of such matters will not have a material effect on the financial position of the Company.

NOTE 19 — RELATED PARTY TRANSACTIONS

Loans to executive officers, directors, principal shareholders, and companies in which they have beneficial ownership, for the years ended December 31, 2025 and 2024 were as follows:

(dollars in thousands)	2025	2024
Balance, beginning	\$ 62,030	\$ 59,841
New loans and other additions	5,953	5,960
Repayments and other reductions	(1,614)	(3,771)
Balance, ending	\$ 66,369	\$ 62,030

MIDWEST BANKCENTRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2025 and 2024

Management believes all loans to directors and executive officers were made in the ordinary course of business on substantially the same terms and conditions, including interest rates and collateral, as those prevailing at the same time for comparable transactions with other customers, and did not, in the opinion of management, involve more than normal credit risk or present other unfavorable features.

The Bank held related party deposits of \$34.9 million and \$31.3 million at December 31, 2025 and 2024, respectively.
